Packaging machines

Packaging machines which inspires!

Would you like to organise your packaging and dispatch area more efficiently and more cheaply? You can achieve these savings easily with our s + h packaging machines. Our packaging machines are considerably quicker than manual packaging and strapping.

Mechanical wrapping of your pallets in addition to strapping is the most economic efficient variation for security and protection of your goods. When doing so, the material usage is minimal.

Make the most of our 100 years of experience in all areas.

We provide extensive, expert and individual consultation, especially for packaging machines, and offer you outstanding customer service in addition.

After production, the machines are set up and commissioned in our works. All functions are checked, and the machine is only delivered to you after all inspections have been completed.

Our technicians will visit you in your works and instruct you professionally in your packaging machine functions.

We have the solutions for your individual dispatch, and would be pleased to advise you and draw up a non-binding quotation.

Our packaging machine range includes the following product groups:

Strapping machines

Pallet wrappers

Pre-stretching units

Shrinking units

Rotation/long goods wrappers

Mobile strapping devices

Carton erectors

Floor flap folders

Carton closers

Stretch robots

Packaging lines

Accessories

Dispatch & packaging

Would you like to protect and pack your goods and deliveries safely and then ship them?

Our business customers from industry, trade, authorities and logistics centres have been putting their trust in our s + h packaging machinery in the shipment sector for more than 100 years now - at top quality and at fair prices.

We stand out through personal and expert advice in addition to rapid and reliable delivery using our own transport fleet.

We can offer you a wide variety of packaging materials and packaging equipment and we are sure to be able to find the right solution for your warehouse, production, office and logistics areas.

Our aspiration is customer satisfaction!

We offer you a wide range at the latest state-of-the-art technology in all sectors around our packaging equipment.

The prices for our products are calculated in accordance with the following factors: the required quality, the strength, the size and the order quantity.

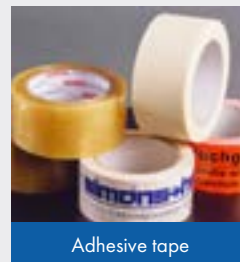

Everyone of our customers has individual requirements and wishes, and for this reason we would be pleased to draw up a non-binding quotation for you.

We are looking forward to your enquiry!

Strapping tapes

Printed strapping tapes

Dispensers

Lifting equipment & load securing material

We at s + h have been supplying our satisfied business customers in the industrial, trade, authority and logistics sectors for over 100 years now. Our customers place their trust in our high-quality lifting technology and equipment to protect and safeguard their employees, their vehicles and their tanks, boxes containers and lots more.

In addition, they save a considerable amount of fines.

Work safety and health protection for industry and trade.

We only supply tested brand-name quality which is manufactured to DIN standards and certified. The UVV and chain inspection services are carried out by our own service technicians.

For the safe transport of your goods and in accordance with the DGUV Regulation 100-500 inspection standard - operation of working equipment (previously: BGR 500).

Our load securing equipment from s + h is excellently suitable for any transport on land or at sea, or even in the air - for HGVs, transporters, containers, cars, ships and aircraft.

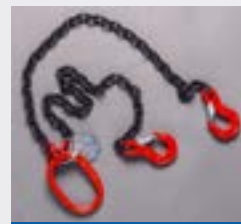

You are sure to find the right product from us, and also the optimal solution for your requirements and your purposes.

We would be pleased to advise you and draw up a non-binding quotation.
